Wednesday, October 7, 2009, 7:30 pm

Memorial Hall / Room 6110

Light refreshments starting at 7:00pm

Caroline P. Lubert

Professor of Mathematics
Department of Mathematics and Statistics

2009-10 CSM Madison Scholar Award Winner

Developments in the science of sound were at their peak in the 18th 19th centuries. This process of scientific enquiry led to an enduring and symbiotic relationship between acoustics and atmospheric science, some aspects of which will be presented in this talk.
